CORE STACK

- Laravel / PHP
- C++ Programming
- Spring Boot
- Next.js
- HTML5 / CSS3
- MySQL
- Git / GitHub
- REST API Basics

STRENGTHS

- Fast learner with practical project mindset
- Clean UI and responsive layouts
- Team collaboration and responsibility
- Problem solving under pressure

EDUCATION

Intermediate in Computer Science
792 / 1100 - Approx. 72%

Matriculation
1017 / 1100 - Approx. 90%

CERTIFICATION

C++ Programming Internship & Training
Arch Technologies
8 weeks: Feb 1 - Mar 25, 2026

MUHAMMAD TALHA SAEED

Junior Full-Stack Developer | Laravel Builder | C++ Trained

PROFESSIONAL PROFILE

Motivated software developer with hands-on experience building responsive web interfaces and practical full-stack applications. Strong foundation in Laravel, PHP, HTML, CSS, Next.js, Spring Boot and C++ programming, with a focus on clean structure, team-ready code and real user workflows. Known for quick learning, professionalism, responsibility and a strong drive to grow into a high-performing full-stack engineer.

FEATURED PROJECT

Project Management System (PMS) - pms.sabthings.com

A Laravel-based project management platform designed to manage projects, teams, tasks, workflows and collaboration from one organized dashboard.

- Built core modules for projects, teams, task assignment, dashboards and workflow tracking.
- Implemented practical admin functionality using Laravel, PHP, MySQL, HTML5 and CSS3.
- Focused on usability with clean navigation, responsive UI and maintainable structure.

PROJECTS & PRACTICE

Frontend Web Projects

- Built responsive web pages using HTML5 and CSS3.
- Practiced mobile-first layouts, clean spacing and user-friendly design.
- Improved fundamentals in structure, styling and UI consistency.

Full-Stack Learning Projects

- Explored backend application development with Spring Boot.
- Practiced modern frontend development using Next.js.
- Learned API-driven application structure and scalable workflows.

TRAINING & ENDORSEMENT

C++ Programming Internship & Training

Arch Technologies | 8 Weeks | Feb 1 - Mar 25, 2026

- Completed structured C++ programming internship and training program.
- Recognized for professionalism, willingness to learn, positive attitude and teamwork.
- Recommendation letter highlights punctuality, responsibility and strong growth potential.

Frontend	HTML5, CSS3, Responsive Design, Next.js
Backend	Laravel, PHP, Spring Boot, REST API Basics
Database/Tools	MySQL, Git, GitHub, VS Code
Professional	Problem Solving, Teamwork, Communication, Fast Learning

Career Objective: Seeking an internship, junior developer role or freelance opportunity where I can contribute to real software projects, strengthen full-stack engineering skills and deliver reliable web applications.
